

# GFX Recycles \$-Energy &

Eliminates Cold Showers By Multiplying  
A Water Heater's Shower-Capacity:  
Triple For Electric,  
Several-fold For Gas, Endless For Oil.

*GFX converts drains into heat exchangers using hot falling-films of drain water to heat cold water from energy now wasted.*

SHOWER  
@ 105°F

*If you're tired of fighting for the only hot shower in the house, install **GFX**.*

\*Cold Water Temperature Averages Vary Greatly  
A: Seattle 41° - B: Memphis 55° - C: Tallahassee 77°
